LOCKEZE ANIMOUS CHOICE FOR PRESERVATION

North Continues To Be Isolated From the Outside Due To Torrential Rains

The whole Peace River, due to further heavy rains, continues to be isolated from the outside, so far as transportation is concerned. However, the flood waters are now gradually falling and it is believed that the peak has been reached and transportation will be re-established in a reasonable length of time.

Big gangs are working on the railway and highways, and those in charge are doing everything possible to repair the damage.

It is expected that the ferry on the Smoky will be running in three or four days as a big gang of men are working feverishly to repair the damage to the east tower.

A temporary bridge is being erected over the Burnt River to take the place of the steel span which was washed down the river. This work should be completed in a few days, thus connecting the south and north side of the Peace.

The Dunvegan ferry was put into operation on Wednesday and travel in that area is going on as before. Sunny skies ruled on Thursday and it is thought that the heavy rains are over for the summer.

Big Smoky a Hiding Tent
The Big Smoky commenced to rise on Monday and it soon became a raging torrent. On Tuesday it overflowed its banks at Moody's Crossing and swept away all the buildings on the east side with the exception of the community cabin.

On the west side the water reached the residence of Mr. Moody. The ferry and cable were saved, but it is understood that the tower on the east side had moved and a gang of men under the direction of A. H. McQuinn, are engaged in making the necessary repairs.

The water began to fall Tuesday night and according to telephone messages received at The Tribune office today (Thursday) is rapidly going down.

As a result of the flood waters the telephone line to DeBolt will be put out of commission, but will be repaired just as soon as possible.

Mill Destroyed on Wapiti
The Wapiti River also went on the rampage and as a result Edwin Cooke's sawmill, which was situated on the stream and landed some distance away and is now stuck on a sand bar. The force of the water is indicated by the fact that in the mill was some very heavy machinery. Due to the undermining of the bank the steam engine fell over into the river.

A large pile of lumber was lifted bodily and landed in a little bay, perfectly intact.

Mr. Cooke's loss had not been estimated up to Thursday night. Word was received Thursday afternoon that Mrs. Gabor's home near the ferry south of Wembley was surprised.

(Continued on Page Eight)

Field Days To Be Held at Various Points in District

Agricultural field days to be sponsored by the various committees of the Spirit River, Grande Prairie and DeBolt are as follows:

Spirit River, July 24, Grande Prairie, July 25, DeBolt, July 26.

At the Grande Prairie Field Day it is hoped to have Junior Live Stock Judging Competitions. There will also be exhibits of club stallions and purebred bulls.

It is expected there will be a discussion of soils and their management, and that representatives of the Department of Agriculture and University of Alberta will be in attendance to address the assembly and give demonstrations.

It is hoped that a large number will avail themselves of the opportunity to take part in this event and to meet these officials and discuss farm problems.

SOCIAL CREDIT PICNIC TO BE HELD SOUTH OF HALFOURTON SUNDAY AFTERNOON, JULY 14
A big Social Credit picnic will be held at Red Willow bridge, south of Halforton, on Sunday, July 14, commencing at 2 p.m.

Those attending are asked to bring their baskets.

A. B. Hickox and other speakers will be present. Refreshments.

FUNERAL OF SCOTTY TAYLOR TO BE HELD SATURDAY NEXT
The funeral of "Scotty" Taylor, who died at his home on his farm south of Grande Prairie on July 3, will be held at Grande Prairie, Saturday, July 6, under the auspices of the Grande Prairie branch of the Canadian Legion.

Hythe Stampede and Sports To be Held on New Up-to-date Grounds On Wed., July 10th

The Hythe rodeo and sports which will be held on Wednesday, July 10th, will be staged on a brand new site which the Sports Association purchased some time ago.

Miller Patterson, chairman of the association, said the new grounds are directly south of the town which runs as follows:

The grounds include an ideal half-mile race track, basketball and tennis courts, football grounds and permanent curbs and chutes, and a regulation size baseball diamond.

The chutes have three-side delivery, so there will be no delays, and the "buckers" will follow one another in quick succession.

The committee have secured the country for the best buckers. Among this lot will be "Albright, Dursey," "Midnight," "The Arabian," "Gray Ghost," "Death" and other notable buckers.

The wild steer riding promises to be just as interesting and will furnish just as many thrills as the horses. "Tough Carroll's famous red steer" will be there. To the present, this animal has never been ridden. Many of the best riders in the country will be on hand and will try conclusions with the toughest kind of horses and steers.

Horse racing will also occupy an important place on the program, which includes a four-horse chariot race and chuck wagon race. Two thrillers that never fail to bring the spectators to their feet.

Other attractions will be basketball, football, softball, tennis, and football.

In the evening there will be a dance which will be followed by a dance in the new building at which Bert Punnell's orchestra will supply the music.

If possible, Mr. and Mrs. Jim Carey, trick riders and expert ropers, will be present. Entries should be in on Monday, July 8, and all draws can be arranged before the big day.

Teepee Creek To Hold Sports On Wed., July 17
Teepee Creek sports, sponsored by the local club, will be held on Wednesday, July 17, on the grounds of the farm of Jack McKenzie, Wednesday, July 17.

The program includes junior and senior baseball, basketball for the girls, senior softball, athletic events, bucking contest, horse race, chuck wagon race, water sports, etc.

On the grounds will be lunch stands and refreshment booths. In the evening there will be a dance, at which the North Star orchestra will supply the music.

Teepee Creek invites everyone to attend the sports and enjoy the day's program.

BASEBALL DANCE AT WEMBLEY
Bert Punnell's orchestra are playing for the baseball boys dance at Wembley this Friday night. The usual time is assured.

Monday, July 15th, Day Set For Holding of G. P. Sports
MONDAY, July 15, was the day set by the Sports Committee for the holding of Grande Prairie's sports, which were to have been held on Monday, July 1, but were postponed on account of weather. The program planned July 1 will be run off, details of which are being given by the committee.

From President Geo. W. T. Balmer, Secretary Al Field, or at P. P. T. Tolley's office.

The Grande Prairie Town Band will be in attendance all afternoon and the program is so varied as to appeal to all tastes. Full details will appear in next week's issue of The Tribune.

Peoria District Will Soon Have Phone Service
According to Mr. Prosser of Peoria district, who was a speaker at the Grande Prairie, having made the trip to take his wife home from the Municipal Hospital, the district will soon be enjoying telephone service.

Some time ago a local company was formed for the purpose of running the line is complete throughout the district and those responsible are now waiting for the necessary order to run the line into Wanham.

The company starts with 22 subscribers.

Senator W. A. Griesbach
Whom the Associated Boards of Trade of Peace River have asked for an alternative highway to Whitecourt as a relief measure.

On Wednesday, July 3rd, the following telegram was sent to W. A. Griesbach, Ottawa, by L. C. Howard, President of the Peace River Associated Boards of Trade:

"Extraordinary flood conditions prevailing in the Peace River country have wiped out road and railway, cutting off 80,000 people. Urgently request an emergency measure and as needed useful work, that respective candidates for the coming construction of alternative highway route from Whitecourt to Sturgeon Lake."

Old-Time Cowboy Spirit Shown At Rio Grande Sports
Sports and Rodeo Went Over Big Though Delayed for a Couple of Days by Heavy Rains

With the old-time cowboy spirit of Rio Grande and high water, Rio Grande had Wednesday put on its 18th annual sports and rodeo.

Three inches of rain fell on Sunday and Monday and caused postponement of the event from July 1. Rio Grande's regular sports day is to July 3, by which time warm sunshine and strong winds had rapidly dried the roads and sports grounds near the bridge over the Red Willow at Rio Grande.

The sports grounds are ideally situated near the river. They are well equipped with baseball diamond, basketball court, race course, grandstand, chutes, corral, etc.

Wednesday was a perfect sports day and a perfect rodeo day, despite the rough roads. During the day many sat in the grandstand, while the horse and horse races were held playing selections throughout the day, supplying the inspiration of good music.

For the inner man there were refreshments and the women got their money's worth.

Secretary Frank Rhonda was a busy man the whole day, as also were the other officials, but they put on a good show and the customers got their money's worth.

BASEBALL
Rio Grande 3, Albright 1

The first teams to clash in the baseball tournament were Rio Grande and Albright. The latter team put up a good fight, but Rio Grande won them two better and won the game 3 to 1.

Batteries: For Rio Grande, J. H. Barrell, pitcher; D. J. Barrell, catcher; (Continued on Page Eight)

DeBolt All Set For Holding Two Days Big Stampede and Sports on July 10th and 11th

DeBolt, July 3. The committee in charge of the stampede and sports to be held here on Wednesday and Thursday, July 10 and 11, has the program well in hand and by the time the days for holding the event of the week are over, all details will have been overlooked to put the sports across one hundred per cent.

The grounds have been put in first-class shape, corral and chutes and the race track thoroughly dragged and levelled.

The committee is all set for the big event, which has become a fixture in the life of the people East of the Smoky.

There is a splendid camping area on the grounds, where lunches and refreshments will be served.

The best bucking horses in the country are being gathered in for the occasion. Also the wildest steers are being rounded up.

Mr. and Mrs. Jim Carey will give exhibitions each day of fancy riding and roping.

Chuck wagons and chariot races will be among the highlights of the track event.

Baseball and athletic events are also on the program.

The sports committee invite everyone to attend and spend two enjoyable days amidst ideal natural environment.

Each day's program will start with a parade which will assemble at 9 a.m. in the village.

DEMONSTRATION OF ELECTRIC COOKING
A demonstration of Electric Cooking will be given Saturday, July 6, from 2:30 to 4 p.m., in the Oddfellows Hall, Grande Prairie. See advertisement on Page 7.

U. F. A. Federal Convention On Friday, July 26th
The U. F. A. Federal nominating convention will be held at Grande Prairie, Friday, July 26, commencing at 11 a.m.

The delegates are asked to note that representation will be on a basis of 1 to 10 members. A large representative convention is looked for.

There will be plenty of time to consider resolutions and transact other business. The convention will be addressed by D. M. Kennedy and other prominent speakers.

NO MORE STOCK TRAINS FROM THE NORTH UNTIL GIVEN FURTHER NOTICE
Until further notice, no stock trains will leave the Peace River country. This is due to the flood situation at Sturgeon Lake and the slides at the Smoky, which has crippled the railways.

In View of Transportation Facilities the Attendance At Convention Very Satisfactory

Joe Moore Again Pres. Conservative Prov. Association

The following officers were elected at the Conservative convention held at Grande Prairie on Friday:

President—Joe Moore (re-elected). Vice-President—J. A. Fleming. Secretary—D. W. Pratt.

The executive is composed of representatives from the various districts or divisions of the constituency. Each member of the executive will be responsible for his particular district.

Big Seaplane Lands Mail at Bear Lake

On Wednesday a wire was sent to Major H. H. Pratt, superintendent at Edmonton, by the Grande Prairie Board of Trade, asking that first-class mail be provided for the area.

The plane, which was carrying mail, was beginning to arrive.

The superintendent, readily responded to the request. The plane, loaded with mail, landed on Bear Lake Thursday night about 10 o'clock.

With Pilot Louis Laid of Canadian Airways at the controls, a perfect landing was made in the presence of some 200 or more onlookers. Only two definite parties, Social Credit and Conservative, attended the convention.

A "one strip of white cloth" at the tail of the "May" was indicated the direction from which the slight breeze was blowing.

The mail was transferred from the plane by rowboat to the shore, where Postmaster, Cannon, was waiting to receive it. In a few minutes it was in Alex Wishart's truck and being whirled away to Grande Prairie.

The plane carried the following passengers: Postal Inspector T. Reilly and Mail Clerks H. D. McLaughlin and George Tomlinson.

Coming in a stop was made at McLean, where ten bags of first-class mail and returned mail for the area, were taken to Hudson's house and picked up by the mail carrier.

The plane left Cooking Lake, near Edmonton, at 5:15 p.m.

Willing hands assisted in tying the plane up for the night. J. W. Pratt, president of the Grande Prairie Model School, was on hand and gave valuable assistance.

Pilot Laid stated to The Tribune that he would start about 9:30 a.m. tomorrow morning (Friday) for Edmonton.

ANNUAL MEETING W. I. AT BEAVER LODGE ON FRIDAY, JULY 12TH

The annual constituency conference of the Grande Prairie Women's Institute will be held at the Beaver Lodge at Beaverlodge, Friday, July 12th, at 2 p.m.

The Northern District, Mrs. Upton of Beaverlodge, the Provincial vice-president, will be in charge of the day.

Mr. and Mrs. W. D. Albright of the Beaverlodge Experimental Farm, are also expected.

Much interest is being taken in the handicraft exhibit, towards which several new prizes have been donated.

Supper at a nominal charge is being served at one of the cafes, and an evening session at which Mrs. Stewart will be the main speaker, is being held.

It is hoped that every branch will send delegates and visitors, so that there may be a good attendance.

Changes In School Curriculum Briefly Outlined By Inspector H. E. Balfour To Tribune

A very wide variety of optional subjects is proposed to be added to the list of local school boards to provide facilities for such subjects as manual training, household economics, chess, music, junior business, drama, etc. Health, education, bookkeeping, Grade twelve standard of entrance to university, etc., will be simplified, cutting somewhat higher standard in a much smaller number of subjects.

Conditions are at work securing outlines of courses and sample text books and arrangements are being made to provide summer school courses for teachers.

Inspector "What about the public school courses?"

Mr. Balfour: "Committees have been selected to look into a revision of public school courses, with a view to simplification and to evolving recent curriculum which can be met by the smallest schools. Teachers attending summer school will be given an opportunity to study the proposed changes, which are probably as important as any changes in the past."

Timely Hints From the Beaverlodge Sub-Station

W. D. Albright
"IT IS A PLEASURE AS WELL AS A DUTY TO SERVE"

Great truths are usually simple to state and easy to comprehend.

How stuff can grow during the long days when there is plenty of rain and warmth!

Do unto others as ye would that they should do unto you. This covers animals as well as humans.

This issue of Timely Hints is scribbled on the road and the usual scribbles of iniquities is not before the author as he writes.

Whether at home or away from home, a man is better for a bath, a shave and a sunny change of clothes. He feels more like a man.

Whether with poultry, swine, sheep or other stock, sanitation and protection from parasitic infection are a considerable part of the battle. Pure drinking water and change of runway count for a great deal.

Is the greatest asset of a country its material or its human resources? Think of Scotland, Scandinavia, Holland, Switzerland and the other small countries. It is what we make of our opportunities that counts.

From the number of rusty-coated hat racks of cattle to be seen almost any farming one wishes that nutrition problems might be studied by their owners. A reasonable acreage of good hay should help.

Multitasking feeding—balanced rations, shade from the hot summer sun and clipping pastures, where the hogs may rub against a tree, seeking comfort with crank-case oil, will do much to protect them from sunstroke.

The root harrow is of great help in tearing the scrub roots out of the soil. It seems to work best if the plowing is left for a fortnight or so, then root-harrow before being disked.

If for the purpose of wire-worm control plowing of the summerfallow is left until the period between the 10th and 20th of July, as advised by Professor Stickland, it is important that this plowing be preceded by sufficient shallow cultivation to keep the early weed growth in check. Otherwise the delay in plowing will be disadvantageous on two counts.

The trouble with many a trial is that proper checks are not provided. If one follows a certain course one year, another course the next year, varying results, the tendency is to infer that the change is the cause. Until one has compared two practices under like conditions of time and place he is unwarranted in venturing a comparative opinion.

When the current leaves pucker and turn red, look on the undersides for plant lice. They suck the juices from the leaves and may be killed only by a contact insecticide such as nicotine sulphate, sprayed with considerable force and directed upwards so as to reach them where harbored under the leaves. Thorough application will fail to destroy all, and those which escape have prodigious

power of multiplication, but persistence pays.

Wireworms have a long life cycle, as the larval stage is, and pass through the usual four stages, viz., egg, larva (worm), pupa and mature insect. The larval stage is the one that does most harm to crops.

Whether at home or away from home, a man is better for a bath, a shave and a sunny change of clothes. He feels more like a man.

From the number of rusty-coated hat racks of cattle to be seen almost any farming one wishes that nutrition problems might be studied by their owners. A reasonable acreage of good hay should help.

Multitasking feeding—balanced rations, shade from the hot summer sun and clipping pastures, where the hogs may rub against a tree, seeking comfort with crank-case oil, will do much to protect them from sunstroke.

all crops is shown, but here again the weather is a factor. In British Columbia, owing to the dry spell in May, below average yields are indicated. The recent rain has materially improved conditions. Details follow:

Alberta
Crops are backward but conditions generally are favorable. Moisture conditions are satisfactory, except in the southeastern area, and wheat shows strong even growth. Pastures and ranges are generally good. Hail damage is making good headway.

Saskatchewan
All grains are making good progress. Plants are well rooted and have good color. Moisture conditions generally are satisfactory, although further moisture is required in the southwestern area. Recent rains have improved prospects in the west-central area, where soil drifting had occurred. Scattered areas report damage from cutworms and wireworms. Hatching of grasshoppers has been retarded by wet cool weather. Pastures are in good condition.

Manitoba
Wheat growth is uniform and vigorous. Plants are standing well at an average height of 18 to 20 inches. It is simple for the present and prospects for all crops are promising. Grasshoppers are making good headway in the central and northern districts, but are not yet menacing. Pastures are in good condition.

Ontario
Heading of grain and the planting of corn and potatoes are now practically completed. The weather is simple for the present and prospects for all crops are promising. Grasshoppers are making good headway in the central and northern districts, but are not yet menacing. Pastures are in good condition.

Quebec
Heading of grain and the planting of corn and potatoes are now practically completed. The weather is simple for the present and prospects for all crops are promising. Grasshoppers are making good headway in the central and northern districts, but are not yet menacing. Pastures are in good condition.

Atlantic Provinces
Heading of grain and the planting of corn and potatoes are now practically completed. The weather is simple for the present and prospects for all crops are promising. Grasshoppers are making good headway in the central and northern districts, but are not yet menacing. Pastures are in good condition.

Alberta Crop Report No. 3

Issued by the Dept. of Agriculture of the Province of Alberta, Edmonton, June 20.

With rains varying in intensity reported in many districts of the province, the general outlook for crops in Alberta continues to be satisfactory. While it is well to be cautious, the outlook is generally good. The weather is simple for the present and prospects for all crops are promising. Grasshoppers are making good headway in the central and northern districts, but are not yet menacing. Pastures are in good condition.

Manitoba
Wheat growth is uniform and vigorous. Plants are standing well at an average height of 18 to 20 inches. It is simple for the present and prospects for all crops are promising. Grasshoppers are making good headway in the central and northern districts, but are not yet menacing. Pastures are in good condition.

looking fine. Alfalfa irrigated and greened well. Pastures burned. Carleton Place—Rain brought moisture up to inch for June, but not enough to get crops started in need of moisture. Crops generally well stood, up in head. Marked improvement in eastern section. Best thinning advancing rapidly, good crop indicated. Alfalfa being irrigated. Late work generally improved. No important insect damage.

Calgary—Precipitation sufficient for crop needs. Pastures drying. No drifting. Wheat excellent, up to 7 inches high. Corn grain late, but doing well. Pasture inclined to be short. Live stock condition excellent. Hatching of grasshoppers delayed. Damage by hoppers during warm weather since recovered through moisture and spraying.

High River—Recent rainfall has brought all growth along in remarkable way. Grain standing satisfactorily. Gives promise of good crop. Pastures now good. Wheat well up and uniform. Other crop growth good.

Calgary—Rain has materially added to crop outlook. To mid-July of last week situation in some districts was becoming serious, but in many cases now allay. Crops generally satisfactory. Some wheat in shock. Pastures have suffered but are improving.

Brooks—Little rainfall during June. Wheat growing well. Corn grain late, but doing well. Pasture and alfalfa excellent. No insect damage. Live stock condition good. Hatching of grasshoppers delayed. Damage by hoppers during warm weather since recovered through moisture and spraying.

Olds—Heavy rainfall the past week, at Olds, some soil drifting in eastern section. Wheat well up, needs more water. Corn grain late, but doing well. Pasture growth good. Live stock improving.

Red Deer—Moisture abundant. Average height of wheat 5 inches. Corn grain showing in most fields. Some green feed to be seen. Tame grasses and clovers looking well. No insect damage. Live stock good condition.

Wainwright—Total rainfall April to June 1935, 10.5 inches. Conditions generally good and grain showing strong growth. Hoppers hatching, but comparatively little damage. Tame grasses and clovers looking well. No insect damage. Live stock good condition.

Stettin—Heavy rains have made crop conditions almost ideal, and will carry grain forward for some time. Some drifting previous to rains. Wheat and alfalfa are in excellent condition. Other grains coming on well. Some damage by wireworms necessitating spraying. Live stock improving.

Lloydminster—Good rains covered territory, now good storage sufficient to carry grain forward for some time. Wheat and alfalfa are in excellent condition. Other grains coming on well. Some damage by wireworms necessitating spraying. Live stock improving.

St. Paul—Good rainfall no damage to crops. Wheat growing well. Corn grain late, but doing well. Pasture growth good. Live stock improving.

Vermilion—Recent rains have made conditions satisfactory. Wheat growing evenly, but not all grain is in the ground. Corn grain late, but doing well. Pasture growth good. Live stock improving.

Vegreville—Soil conditions favorable. Wheat growing well. Corn grain late, but doing well. Pasture growth good. Live stock improving.

Westlock—Heavy rain past week. Wheat growing well. Corn grain late, but doing well. Pasture growth good. Live stock improving.

Sanguin—Abundance of moisture. Wheat making good growth, needs more water. Corn grain late, but doing well. Pasture growth good. Live stock improving.

High River—Recent rainfall has brought all growth along in remarkable way. Grain standing satisfactorily. Gives promise of good crop. Pastures now good. Wheat well up and uniform. Other crop growth good.

Calgary—Rain has materially added to crop outlook. To mid-July of last week situation in some districts was becoming serious, but in many cases now allay. Crops generally satisfactory. Some wheat in shock. Pastures have suffered but are improving.

Brooks—Little rainfall during June. Wheat growing well. Corn grain late, but doing well. Pasture and alfalfa excellent. No insect damage. Live stock condition good. Hatching of grasshoppers delayed. Damage by hoppers during warm weather since recovered through moisture and spraying.

Olds—Heavy rainfall the past week, at Olds, some soil drifting in eastern section. Wheat well up, needs more water. Corn grain late, but doing well. Pasture growth good. Live stock improving.

warm weather: hay shows wonderful growth. Alfalfa irrigated and greened well. Pastures burned. Carleton Place—Rain brought moisture up to inch for June, but not enough to get crops started in need of moisture. Crops generally well stood, up in head. Marked improvement in eastern section. Best thinning advancing rapidly, good crop indicated. Alfalfa being irrigated. Late work generally improved. No important insect damage.

Calgary—Precipitation sufficient for crop needs. Pastures drying. No drifting. Wheat excellent, up to 7 inches high. Corn grain late, but doing well. Pasture inclined to be short. 100 to 245 pounds. These three classes were the most numerous, the first class weighing from about 50 pounds to 70 pounds. With these three classes in each grade according to weight. In addition to these three classes there were a few heavy and light carcasses outside the weight requirements for the standard grades.

Any progressive feature related to the hog trade is of advantage and benefit not only to the farmer but to practically everyone else in Canada. The hog is in the front rank of economic importance to Canada.

"CHEESE IN THE PICNIC BASKET"
The picnic season is here again and from now on until the leaves have changed their color many a picnic basket will be packed and many a happy family or group of friends will go to the woods, the trout streams or other enchanting haunts to enjoy hours of leisure in the great outdoors.

Some foods seem to be just right for picnics—and cheese is one of them. Cheese sandwiches are, without doubt, the most popular and most practical of any food for picnics. It is a good idea, and an easy one, to vary the standard grade of one picnic to another by making use of the many cheese fillings which can be had quickly and economically prepared. For tasty and nourishing sandwiches, however, it is better to use Canadian cheddar, processed, cottage or cream—with salad dressing and sliced cucumbers, green peppers, onions, pickles, olives or celery. Use a generous amount of filling with broiled white bread cut to suit the occasion—in other words, the picnic basket for a change, use the filling in broiled white bread or rolls.

Another suggestion is to serve plain broiled bread or rolls in place of the sandwiches, and make cheese a part of the salad by combining grated cheese with the salad dressing, or by serving a cheese dressing with the salad. For the dressing blend together equal parts of grated Canadian cheddar cheese, processed, cream or cottage cheese with salad dressing, folding in whipped cream if desired. Small balls of cottage or cream cheese, sliced cucumbers, the cheddar or processed cheese, large prunes or celery sticks stuffed with a cheese mixture, all add flavor and food value to the picnic salad plate. And speaking of salads, broiled bread or rolls in place of the sandwiches, celery, asparagus, pineapple, peaches and pears are especially delicious served with a cheese accompaniment.

Still another idea—For your next picnic make a couple of cheese straws or cheese biscuits and see how they are enjoyed.

Cheese Straws
1 cup flour.
1/2 cup butter.
1 teaspoon baking powder.
1 teaspoon salt.
2 tablespoons butter.
1 cup grated cheese.
Cold water.

Mix dry ingredients. Add butter and cold water to make a dough. Roll in a thin sheet. Cut in strips 1/4 inch by 1/2 inch. Bake at 400 degrees F. for 10 minutes. Yield, 3 1/2 dozen.

Cheese Biscuits
3 cups flour.
2 tablespoons baking powder.
2 tablespoons salt.
3/4 cup cold butter.
3/4 cup cold water.
1/2 cup grated cheese.

Mix dry ingredients. Add butter and cold water to make a dough. Roll in a thin sheet. Cut in strips 1/4 inch by 1/2 inch. Bake at 400 degrees F. for 10 minutes. Yield, 3 1/2 dozen.

Still another idea—For your next picnic make a couple of cheese straws or cheese biscuits and see how they are enjoyed.

Cheese Straws
1 cup flour.
1/2 cup butter.
1 teaspoon baking powder.
1 teaspoon salt.
2 tablespoons butter.

What Happened Under Inflation in France and Germany

Authentic Statement by ROGER W. BABSON

HARBOR PARK, Mass., June 26.—Much propaganda has been issued from various sources discussing the beneficial and harmful effects of inflation. As I indicated in my last month's article on Canada, I want to discuss briefly what happened under violent inflation in France and Germany and what proved to be the best heads against loss of capital.

HOW INFLATION RAISES PRICES

First, readers should understand how inflation is expected to increase business activity. Business can be increased by speeding up the volume of money and the velocity of its circulation. Bank credit is money just as much as the bills which you have in your pockets. When there is \$100,000,000 in bank deposits and millions more in currency in the circulation, an issue of, say, 100,000,000 in paper currency would be considered inflationary. It is not, however, only a trifle in relation to your total money. Therefore, to increase business activity and, consequently, to increase not only to increase the volume of currency but the speed of its circulation.

The only way this can be accomplished is by making people spend. One of the quickest ways to make people spend is to make them think that the money in their pockets will be worth less tomorrow than it is today. Under deliberate inflation, the

WAGES AND SAVINGS

To show exactly what happens to wages and savings under inflation, I use the following concrete example. The first table shows the story of the wages of a Frenchman whose salary was 1918-1929. What happened to him, however, was the purchasing power of his money. The second table, in the second column, shows its equivalent gold value. By 1929 he could buy just half of what his 1918 salary could purchase. The second table shows the same man's savings. He put up his savings bank for the first of his salary each year. At the end of 1929, his savings bank had 11,032 paper francs, but just 4,700 gold francs.

Under deliberate inflation, the

The Untouchables

Not long ago, in a village near Nagpur in India, a girl of high Hindu caste fell into a well.

Her shouts attracted the attention of a few villagers who rushed to her rescue. But other villagers prevented the boys from entering the well because the girl was of high caste. The caste system, more primitive and intolerant than anything we have in the West, is the greatest force in India.

The four castes—the Priests, the Warriors, the Agriculturists and the Laborers—are subject to hundreds of subdivisions. But outside and below all caste are the untouchables. They belong to no caste. They are looked upon as polluted and they work only as scavengers. The origin of this class is believed to have come about in this way:

To show exactly what happens to wages and savings under inflation, I use the following concrete example. The first table shows the story of the wages of a Frenchman whose salary was 1918-1929. What happened to him, however, was the purchasing power of his money. The second table, in the second column, shows its equivalent gold value. By 1929 he could buy just half of what his 1918 salary could purchase. The second table shows the same man's savings. He put up his savings bank for the first of his salary each year. At the end of 1929, his savings bank had 11,032 paper francs, but just 4,700 gold francs.

Under deliberate inflation, the

freshness of an inn if he is hungry and thirsty. If there is a famine or shortage of water he is the last to be helped. The untouchables must move to a given distance.

Some are not even allowed to work. They are allowed to beg far away from the road, where they would not be noticed unless they cried out for alms.

Conference after conference has failed to lessen the interference with which these unfortunate, depressed classes are regarded by the higher castes. The untouchables are still a social leper as he has been for over 2,000 years. Though in industrial cases of enlightened men the dislike of the untouchable has slightly diminished, generally speaking, it is as strong as ever.

Only four years ago a resolution was passed by the British House of Commons that the untouchables must not be allowed to wear clothes better than those of the higher castes. They must not have their hair cropped, or use umbrellas for protection against the sun.

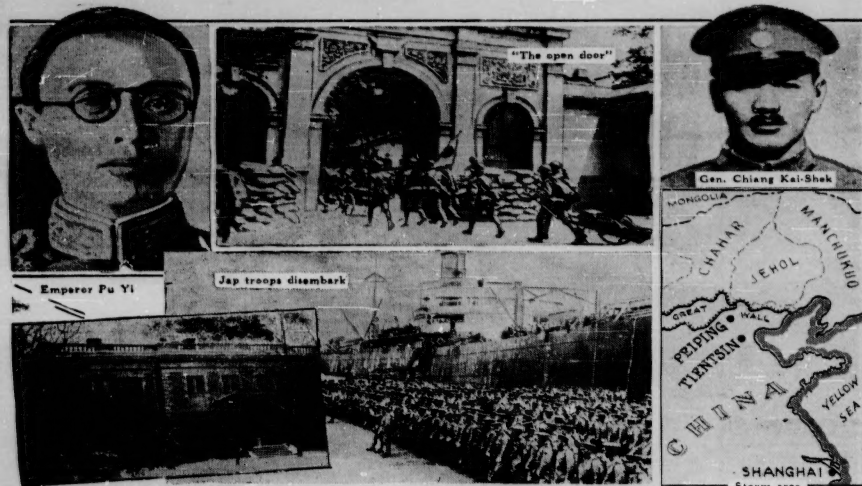

Untouchable women must not be allowed to wear saris. They must not be allowed to use flowers (Indian women are decorated with garlands of flowers with jasmine, or other flower blossoms).

These are forbidden to build houses

OUTBREAK OF HOSTILITIES FEARED IN SINO-JAPANESE CRISIS
Refusal of the Chinese National government at Nanking to agree to the new demands of the Japanese has brought on a concentration of Japanese troops in the north China sector, where an open break of hostilities is feared imminent. General Chiang Kai-shek, Chinese war lord, is a central figure in the situation which may result in Emperor Pu Yi of Manchukuo, former boy emperor of China, being placed at the head of a provisional government established by the Japanese in North China. Considerable apprehension is felt in legation quarters at Tientsin, where several foreign legations are located. At the lower left is a picture of one of the legation buildings.

MISSIONARIES HONORED BY THE KING-EMPEROR

Word has just been received in Canada from Central India that several missionaries of the United Church of Canada have received the Silver Jubilee Medal. Three of the recipients are shown above. Left to right: Rev. J. T. Taylor, D.D., Principal of the Theological Seminary, Indore, formerly of Galt, Ont.; Rev. A. A. Scott, M.A., Principal of the Indore Christian College, formerly of Carlton Place, Ont.; and Rev. F. H. Russell, D.D., evangelistic missionary at Ruitan, who went to India from Toronto.

ONTARIO DEPUTY OF MINES

Thomas F. Sutherland, whose appointment as Deputy Minister of Mines for Ontario has been announced. Mr. Sutherland has been Active Deputy Minister for several years.

WHERE TRAGIC BRITISH TRAIN WRECK OCCURRED

The arrow in the above map points to the spot, north of London, where nineteen people were killed and 25 injured when a fast freight train collided with the rear end of a passenger train over the week-end. The passenger express was standing at Welwyn Gardens station when a freight train, traveling at an estimated speed of 70 miles an hour, plowed its way through the back of the train. This is the worst train wreck Britain has experienced in nearly a generation.

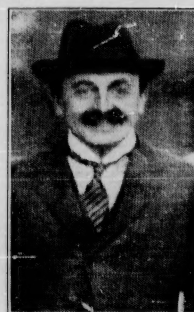

LONG DISTANCE FLIERS WAIT FOR GOOD WEATHER

At the first break in the weather, the Marquis George de Monteverde, right, and his brother, Count Alfred de Monteverde, Portuguese nobleman, will take off from Wood Bennett Field at New York for a trans-Atlantic flight to Rome, Italy.

PAGE THE QUINTUPLETS

A certain tulip in the garden of the Misses Beatty of Pembroke, Ontario, decided that the Dionne quintuplets had been receiving too much publicity so it produced sextuplets just to show that it could be done. Here we see the extraordinary tulip shortly after being cut. — Photo Artana Studios, Pembroke.

HEADS ALBERTA PROBE

Mr. Monague Harlow, P.C., C.B.E., former Minister of Agriculture in Great Britain, who will be chairman of the royal commission, to investigate the road situation in Alberta. He will arrive in Canada in September to start the inquiry.

ALTA. NEWS BULLETIN

Issued by the Publicity Commissioner, Edmonton, June 22

New Deputy of Education

Appointment of 41, Fred McNally to the position of Deputy Minister of Education for Alberta, to fill the vacancy caused by the death a few weeks ago of Geo. Gorman. Mr. McNally has been Supervisor of Schools for a number of years and has been with the department for a period of 20 years.

Highway Program

Paving the way for completion of the all-weather highway to Jasper and for work on the Trans-Canada Highway, announced for a \$1,500,000 bank credit in addition to the federal loan of \$1,250,000 for relief purposes while in the East recently. The road projects named are definite portions of the 1935 program, Mr. Hoadley said.

The Calgary-Banff highway, on which repairs were being made, is now capable of travel throughout without detours. Progress is being made on the construction of the small remaining sections of the Edmonton-Jasper highway and graveling of these sections will be done in August, when the road will be completed as an all-weather highway.

A further section of the Peace River highway north of Edmonton will, it is expected, also be gravelled this season, states Hon. J. J. McMillan, Minister of Public Works.

Appoint New Agriculturist

Archibald A. Campbell, formerly of the C. P. R. Irrigation Branch, has been appointed agricultural agent for the Provincial Department of Agriculture at Lethbridge, replacing M. L. Frensch, who was transferred to Brooks district some weeks ago.

Gets Harvard Appointment

Dr. George Alan Harcourt, geologist, son of Professor George Harcourt of the University of Alberta, and a brilliant graduate of that institution, has been appointed to the faculty of Harvard University.

Marking All Rivers

As a matter of information for all tourists, both resident and non-resident, the Public Works Department of the province is arranging, at the suggestion of Hon. J. J. McMillan, Minister, to place signs on all bridges crossing rivers of any importance, on main highways throughout the province, conveying information as to the names of the rivers.

Junior Grain Clubs

A total of 130 Junior Grain Clubs have been organized in Alberta this year, with over 2,000 members, compared with 104 clubs in 1934.

UPSET THE LAWN TENNIS APPLEGART

Here is an action picture of Gustav von Cramm, famous German lawn tennis star, who is very much in the spot limelight these days. He lost to Fred Perry in the final of the French championship but came right back and defeated Jack Crawford of Australia in the semi-final of the European zone Davis Cup series to help his team reach the final of the series. A very stylish player, Von Cramm has been steadily improving his game during the past two years.

"NEW DEAL" MEXICAN

PRESIDENT WINS OUT

Mexico's turbulent political situation apparently has ended in victory for Lázaro Cárdenas, president and rival of General Plutarco Calles, who has been virtual dictator for the past eight years. General Saturnino Cedillo, ruler of San Luis Potosí, is another political power whose actions may have a far-reaching effect on Mexico's future.

Cárdenas is backing a six-year plan of economic development designed to give a "new deal" to workers and peasants.

PRINCESS MARINA'S FATHER CLEVER ARTIST

Some fifty pictures, recent works of Prince Nicholas of Greece, father of the Duchess of Kent, are on exhibition in London at the present time and are attracting a good deal of interest. Here is shown Prince Nicholas standing beside some of his paintings at the exhibition.

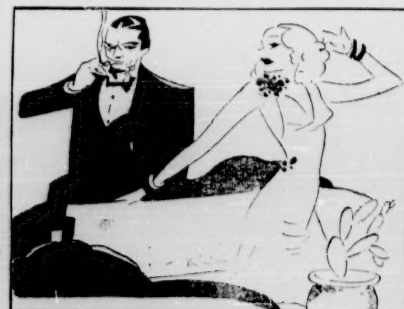

L. F. Phila, director of finance for the city of Montreal, announced all of the city's \$12,000,000 loan had been subscribed.

The 1936 general assembly of the Presbyterian Church in Canada will be held in McNabb Street Church, Hamilton, it was decided.

The Prince of Wales has publicly endorsed a suggestion that a British Legion deputation should pay a goodwill visit to Germany.

The first leather footwear for the Dionne quintuplets was selected at Chicago at the shoe manufacturers' fall opening. Of a fashionable type, the shoes are size No. 2, and the material is white leather with leather soles. They have "T-strap" with pearl buttons.

Twenty-eight civil servants under the age of 44 years have been retired on superannuation because of ill health since August 1, 1934, according to a return tabled in the House at Ottawa.

"It's my husband, doctor. He has always got dots in front of his eyes."
"Oh, I shouldn't worry too much about his eyes."
"But he will keep on trying to sign his name on them!"
—Queen Mischino, Milan.

Gleanings of Interest To the Women Folks

By THE GLEANER

On Wednesday night of last week Mrs. Haydon entertained a few friends in honor of Mrs. Lydell.

Mr. and Mrs. E. Prevost and Miss Carle Prevost of Wainham were visitors in Grande Prairie this week.

Miss Helen Paul and Miss W. Patterson are spending a few days of their holidays camping at Bear Lake.

Miss Allan Watts and daughter Billings of Ft. McMurray are the guests of her mother, Mrs. Cave-Brown.

Miss Jean Loewen of Buffalo Lakes spent a few days in Grande Prairie this week. Her sister, Mrs. Landry, is a patient at the Municipal Hospital.

Miss Peggy Bower celebrated the sixth anniversary of her birthday on Thursday, had a few of her friends in to luncheon.

Mrs. Beant and daughter Muriel left on Wednesday for Banff Valley, where they will spend their summer holidays on their farm.

Mrs. D. Carleton of Wembley entertained Grande Prairie, Lake Mackinac and Wembley friends to afternoon tea on Friday last.

Heily Bazar, Ida Nell and Miss Davison, the latter of East of the Smoky, left by car on Saturday night for a holiday trip to Edmonton, Calgary, Banff and points.

Miss Garrett, of the Grande Prairie Municipal Hospital, who has been spending part of her vacation with Mr. and Mrs. Davis, returned to Grande Prairie this week.

Miss Muriel Weicker, who has been staying with Mrs. Wm. Haydon, has returned to her home in Saskatoon, after completing her business course at St. John's college.

ENTERTAINS CHORUS
On Saturday Mrs. Vaughan entertained the Junior Choir of St. Paul's Baptist Church to afternoon tea.

BAPTIST W. M. C. TO MEET
The Women's Missionary Circle of McLaughlin Baptist Church will meet at the home of Mrs. Swanton, Wednesday, July 10, at 3 p.m.

Miss Eileen Slater, who has been staying with Mrs. Smith while taking a business course, returned to her home in Peace River on Saturday. Miss Slater has accepted a position as stenographer for Campbell, Wilson & Horne.

Theda Carter, who has been staying at the Academy attending St. Joseph's Separate School, left on Monday for a train for Edmonton, Alberta. Shirley Carter, daughter of Mr. and Mrs. Carter of Niobe, accompanied her for a two months vacation.

Mrs. Ouellette, Frances and Charlie, accompanied by Mrs. Lydell, left for Edmonton on Saturday night, expecting to arrive at "the bad spot" about 4 a.m. We expect they are still at the bad spot—with worse ones in the west!

Miss Betty Bazar and Miss Isobel Neill left on Saturday night for the "outside" and according to the morning report are not only high and dry but extremely comfortable, for they are staying with the Davises on the other side of the river.

CLAIMANT BOYS DEFEAT LADS FROM MONTROSE

Friday night of last week Claimant and Montrose schoolboys, age 15 and under, met in a friendly game of basketball on Claimant sports ground. It was a good game though somewhat of the amateur style, the score being 15-12 in favor of Claimant, who thereby avenged a defeat of the previous Saturday, when the Claimant boys beat the Claimant lads, 7-5.

FIVE MILE CREEK

Divine service will be held in the Five Mile Creek schoolhouse on the second and fourth Sundays of the month, at 11 a.m., by Rev. C. E. Fisher of Forbes Presbyterian Church, Grande Prairie.

CHRISTIAN SCIENCE
At all Christian Science churches

next Sunday the subject of the Lesson-Sermon will be "God." The following is one of the scriptural quotations contained in the Lesson-Sermon: "And the scribe said unto him, Well, Master, thou hast said the truth: for there is one God; and there is none other but he" (Mark 12:29).

One of the correlative passages from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, is as follows (page 91): "Let us rid ourselves of the belief that man is separated from God, and obey only the divine Principle, Life and Love. Here is the great point of departure for all true spiritual growth."

What One Girl Wore:
By Betty Brownlee

So much has been said about the popularity of prints for summer wear that at first thought it would seem that there could be no more to say on the subject. However, fashions in prints change just as they do in the line of the frocks themselves. It may be a season of large prints or a season of small prints.

This season print fashions have run to polka dots, checks and wild-flower patterns and such have been their popularity that no change is indicated for the rest of the summer.

Dots have been particularly in demand and while, as we said before, there is slight change in the mode, the changing in the next few months, the enterprising textile designers have fashioned new versions of the dot print.

Today we illustrate one of the new midsummer frocks in an attractive print which draws upon the dot for its inspiration. It is a pink acetate fabric with a thumb-tack print in black. Cut on simple lines, the skirt is gathered with slight flares at the hemline achieved through the use of inverted pleats. Being ideal for spectator sports wear, this frock features the short skirt.

The bodice is smartly tailored, also, with a rather deep opening down the front, fastened with bone clasps. Inverted pleats are found in the short sleeves, which fall gracefully from the shoulders in cape fashion, and a simple collar of the sports type completes the picture.

Wedding Bells

BIENDARA-KOCHALYK

On Thursday last a very pretty wedding was held in Christ Church, Grande Prairie, which had been beautifully decorated for the occasion. The bridegroom was M. Frederick Biendara of Claimant district. Shortly after he had taken his position at the steps to the church, with his groomsmen, W. Kochalyk, brother of the bride, Peter Kichalo and Bill Mayer, the bride, Miss Anna Kochalyk, came into the church on the arm of her father, Mr. Nicholas Kochalyk of Beaman, who was dressed in white and carried a lovely bouquet of roses and carnations; and her three bridesmaids, Olga, Helena and Maria, sisters of the bride, wore frocks of a delicate shade of pink. The bride was given away by her father.

The church was filled with friends of the bride and bridegroom, who had come to wish them well where a married life. The ceremony was performed by the pastor, Rev. R. J. Pierce.

The wedding party, following the marriage ceremony, drove to the home of the bride's parents where supper was served.

At 9 o'clock the large crowd went to Lindsay school where a wedding dinner was held. The diet of the Smoky orchestra supplying a delightful dinner.

At midnight lunch was served by the bride's mother.

The happy couple left on Saturday morning's train on a honeymoon trip to Calgary, Banff and other points.

After they return Mr. and Mrs. Biendara will reside in their home on the groom's farm northwest of Claimant.

A wedding which unites two Grande Prairie families took place in Christ Church on Monday afternoon July 7, when Mr. Thomas Bromley, eldest son of Mr. and Mrs. H. Bromley, and Miss Dorothy Tanager, daughter of Mr. and Mrs. Victor Tanager, were united in marriage by Rev. R. J. Pierce.

The bride, dressed all in white came into church on the arm of her brother, Mr. Donald Tanager, who gave her in marriage. After the ceremony a reception was held in Christ Church vestry.

The bride and groom are taking up their residence in the north end of town.

NOON-WILLETTS
Last Sunday afternoon Mr. Frederick Moss, a well-known farmer of the Glen Leslie district, and Miss Elizabeth Willetts of Edmonton were married in Christ Church, Grande Prairie, by Rev. R. J. Pierce.

The bride, who has been teaching in Huxford for the past term, looked charming in a white suit and white hat. The reception was given by Mr. and Mrs. Mitchell of Huxford.

CUNNINGHAM-BARKER
A pretty wedding was solemnized in the United Church parson, Beaver Lodge, on Wednesday afternoon, June 29, when Marion Barker, who came the bride of William Alfred Cunningham, both of Rio Grande. The marriage was officiated by Rev. Geo. A. Shields. We wish the couple much happiness.

DALGLEISH-MACKLIN
A pretty wedding was solemnized in the home of Mr. and Mrs. R. D. Macklin of Edmonton on Saturday, June 29, when Dorcas Frances, their daughter, was married to A. Dalgleish of Rio Grande. Rev. Geo. A. Shields officiated. We wish the couple much happiness.

C. OUELLETTE TRANSFERRED TO PLANT OF CANADIAN UTILITIES AT DRUMHELLER

Charles Ouellette, who has been electrician at the Grande Prairie plant of the Canadian Utilities for the past five years, left on Sunday morning by car for Drumheller to work in the company's plant as electrician. He was accompanied by his sister and mother.

Always courteous and extremely efficient in his position, Charlie will be missed by his many friends, who it is needless to say, wish him well in his new post.

G. V. WOMEN'S CLUB HAD
VERY INTERESTING MEETING

Grande Prairie Women's Liberal Club held their thirteenth meeting in the dining room of the Donald Hotel on Friday afternoon.

After the singing of "O Canada," the secretary, Mrs. Vaughan, read the minutes of the last meeting.

The speaker for the afternoon, Mr. T. W. Lawton, read a paper on "Blood." Mrs. W. J. Thompson gave a short and interesting account of conditions in the West.

Mr. and Mrs. Graham told of their experiences among the local farmers in the district. The principals and the president read some helpful articles from the "Liberal." The next meeting will be held on Monday, the 20th, when the winning candidate of the Liberal convention will speak.

CAMPING AT ISLAND
A group of boys under direction of Mrs. H. Strachan, pastor of Wembley Anglican Church, are camping at Mackinac Island and are having the time of their young lives.

Paragraphs of Personal Interest

E. C. Easterbrook, representing Galt, Patrick & Robb, Ltd., was a week-end visitor in Grande Prairie.

J. C. Ward, business-maker, returned to his home in Grande Prairie on Friday from Edmonton, where he was engaged in a serious operation. He is convalescing at his home.

The following from Wainham are visitors to Grande Prairie, anxious to see the 25th on the high way to be filled in order to return home. Mr. and Mrs. Prevost, Miss Carle, and Miss Dorey of Jasper is also a member of the party.

E. C. Mason, assistant superintendent of the Riverdale Experimental Station, on Friday returned from Edmonton, where he attended the recent growers' convention and the convention of the Alberta Agriculturalists. He reported that both meetings were very successful.

Mr. and Mrs. E. W. Bromley and daughter Jean and son Jimmie, of Wembley, spent the week-end during the rainstorm at Grande Prairie, en route to Banff. They will visit the town, Alberta, who operates a milk farm at the lake.

The Bromleys, who have spent the time very pleasantly meeting old friends.

BAND PRACTICE THURS. NIGHTS
Bandmen are asked to report every Thursday night of each week at the council chamber, for practice not later than 8 o'clock.

ANOTHER PIONEER FALLS
BEFORE THE GRIM REAPER
The funeral of Solomon Graham, of the Glenside district, who died at the home of his daughter, Mrs. Verna Peterson, Tempe Creek, will be held on Saturday, July 11, at 2 p.m. services being held in the Tempe Creek Church. Rev. S. R. Hunt of Claimant will officiate.

Barrel will take place in the Tempe Creek cemetery.

EDMONTON, ALTA., July 2. (The Star.)—A well-known pioneer killed when his car crashed through a steel railing of the Grand Canyon bridge and plunged 25 feet to the bottom at 2:35 a.m. on Sunday. Very slippery street was responsible.
